Today we talk of Wash Goods, A little early you think? Not a bit of it. These lovellest of all textiles come to us like the snow drops and crocuses which push their way through the frost hardened ground and ley snow, assuring us that cannot wear them now, but then before they're ready to make there's the choosing of styles, the fashioning and making to do, and besides this experienced buyers know well that an early selection means a sure pick from the very cream of perfect beauty.

An Enormous Production Is Expected, Which Will Make Business Lively in Other Directions .- The Cambria Company Prepared to Fight Carnegie-Rockafeller Combination -- Situation at Pittsburg.

Johnstown, Pa., Feb. 11.-And now it is about to dawn upon the thousands of people hereabouts that it is a happy thing for Johnstown that the steel rail pool has collapsed. What effect it may have upon the Cambria Iron company is nobody's business, but the stockholders. Mr. Elder did not know what effect the drop in the price of steel rails would have on the Cambria company, but he said he guessed that whatever happened the Cambria company would be able to do business at the old stand. Cambria officials said today that it is going the rounds to the effect that the Carnegie-Rockefeller syndicate would control the markets of the world. "We have one of the very finest and best rail mills in the world." said General Manager Price, "and when it comes to that we are prepared to make rails

It was also brought out today in talking with a gentleman closely connected with the Cambria company that the only possible advantage the Carnegie-Rockefeller combination could have over the Cambria company is in the matter of freights on ores from the mines. And it was added that if it should ever come to a "show down" the Cambria company would find a way

to get its ores cheaper. SITUATION AT PITTSBURG.

Pittsburg, Pa., Feb. 11.-The situation in the steel rail business this morning shows that the cut in prices has resolved itself into a bitter war for supremacy. It is learned that the Carnegie Steel company is meeting all competition of the Illinois company and has instructed its representatives in Chicago to sell rails at \$17 in Chicago or \$14.25 in Pittsburg, a lower figure than has been quoted in any reports printed.

When the pool went to pieces in the the truly artistic, Besides this, Pittsburg meeting Monday an agreement is said to have been made between the two big concerns operating west of the mountains to maintain prices, which were then fixed at \$20 Pittsburg and \$21 at Chicago, but each firm was to go after any business that it could obtain. President Gates, the Illinois Steel company, it is alleged. went direct to Chicago, and within two hours the wires were burdened with messages to all the railroads of the west quoting rails at \$18. The Carnegie company at once issued orders to their agents to meet all cuts that might be made, and as a result today the Carnegie company at Chicago is selling rails at \$14.25 per ton, which with the freight from Pittsburg added, makes rate of \$17 and the war it is said is

PORTE SEEKS AID FROM THE POWERS

Alarmed at the Warlike Attitude of Greece.

PROTEST OF ASSIM BEY UNHEEDED

The Powers Have Been Notified That Greece Cannot Remain a Speciator to Events Which Are Taking Place in Crete--Second Torpedo Flotilla Will Be Sent.

Athens, Feb. 11.-The government has formulated a notification to the powers setting forth that Greece cannot remain a mere spectator of the events which are taking place in Crete. and that the ties of race and religion ompel her to intervene in behalf of the oppressed and outraged Christians

in that island. In the chamber of deputies last even ing Premier Delyannis said that either the porte would be prevented by the powers from sending reinforcements to Crete, or would persist in sending them there. In either case, the premier declared the Greek government had decided to take action promptly and decisively. When Crete demanded t union with the mother country, he said Greece would not remain indifferent.

At the conclusion of the remarks of M. Delyannis, the leader of the opposition assured the premier that the government would have the heartiest support of the opposition, which assurance evoked prolonged cheers. The Cretan committee here are mak-ing preparations on a large scale to

land men and munitions of war upon the shores of Crete, and the first in-stalment of 600 men embarked and sailed last evening. Advices received here from Crete say that a fight occurred at Kastelli, in the province of Kissamo, yesterday, in which thirty Christians and 100 Mos-

lems were killed. Crowds continue to surround the palace cheering the king in commendation of his majesty's action in sending war-

ships to Crete. Assim Bey, the Turkish minister, today visited the foreign office, and, acting under instructions from his government, made a protest against the lispatch of the Greek torpedo flotilla to to Crete. Assim Bey was treated with the utmost courtesy, and was informed, so far as diplomacy allowed, of the attitude of Greece on the Cretan ques tion. His protest, however, was, so far as known, productive of no result. The Greek government will not recall the flotilla and furthermore, a sec-ond flotilla will shortly start for Crete. ARBITRATION TALK.

Senator Sherman Is Beginning to Show Some Uneasiness---Speeches of Morgan and Turpie.

Washington, Feb. 11.-Senator Sherman, who is in charge of the general treaty of arbitration with Great Britain now under secret discussion in he senate is beuneasiness. Just before the adjournment this afternoon he notified the senate that it was time an agreement was reached, when the final vote should be taken. Mr. Sherman asked with ex-Governors John D. Long, of if unanimous consent could not be had lowed between those two senators, with others occasionally putting in a word, in which it was apparent that Mr. Sherman would be unable to se cure any kind of an agreement, and he therefore gave up the effort. Beginning with next week Mr. Sherman will repeat his request from day to day and insist that action be taken before that week is over. But two speeches were made on the

treaty today, Mr. Turple, of Indiana, whose position has hitherto not been known by his associates, came out strongly for the convention as negotiated and took the ground that the amendments of the committee were wholly unnecessary and tended but to confuse the public and encumber the instrument itself. The Indiana senator then proceeded to pay his respects to Senator Morgan and reply to the speech that senator made on Tuesday, when he advocated the abrogation of the Clayton-Bulwer treaty. He the Clayton-Bulwer treaty. He pooh poohed the idea that Great Britain had set a trap for the United States, as Mr. Morgan had contended, and denied that we were about to enter into that trap. He had no fear of any secret pitfalls in this treaty, but asserted that it was a plain straightforward effort on the part of two great nations speaking the same tongue to enter into an agreement to settle their disputes without recourse

Mr. Morgan replied to Mr. Turple but when the senate adjourned he had not concluded. He went over much of the ground that he had previously covered and gave notice of an amendmitted for arbitration under this treaty shall be submitted after the manne now required by the constitution for

the ratification of new treaties. This means that every question shall be submitted by the president of the senate for its approval before its submission to the tribunal of arbitration.

WHOLESALE MURDER.

Eighteen Unfath at Wives Administer Poison to Their Husbands.

Vienna, Feb. 11 .- A story of whole sale murder reaches here from a small village in Hungary. It appears that there were a large number of unfaithful wives in the village who were de sirous of ridding themselves of their husbands in order that they might the more easily carry on their laisons with their lovers.

Eighteen of them procured poison which they administered to their husbands, with fatal results. The murders have caused the greatest excitement among the peasants, to which then compelled these officials to submit to class the women and their victims belonged.
